

# GAGANYAAN First Human Space Flight Programme of India

**T**he first abort test using the special test vehicle (TV) as part of Gaganyaan will see the crew module separate from the TV at a light of around 11 km (from Sea level), attain an altitude of around 15 km before falling back in the Bay of Bengal. This test is slated to be carried out in September 2022.

Earlier, the Indian Space Research Organisation (ISRO) has successfully conducted the qualification test of Cryogenic Engine for Gaganyaan programme for a duration of 720 seconds at ISRO Propulsion Complex (IPRC) in Tamil Nadu's Mahendragiri. The performance of the engine met the test objectives and the engine parameters were closely matching with the predictions during the entire duration of the test.

## Gaganyaan

1. The Gaganyaan Programme envisages undertaking the demonstration of human spaceflight to Low Earth Orbit (LEO) in the short-term and will lay the foundation for a sustained Indian human space exploration programme in the long run.
2. The objective of Gaganyaan programme is to demonstrate indigenous capability to undertake human space flight mission to LEO.
3. As part of this programme, two unmanned missions and one manned mission are approved by Government of India (GoI).
4. GSVL Mk III, also called the LVM-3 (Launch Vehicle Mark-3), the three-stage heavy lift launch vehicle, will be used to launch Gaganyaan as it has the necessary payload capability.
5. The Indian Astronauts will be addressed as "Vyomnauts". ISRO's Human Space Flight Centre and Glavcosmos, which is a subsidiary of the Russian state corporation Roscosmos, signed an agreement on July 1, 2019 for cooperation in the selection, support, medical examination and space training of Indian astronauts. During the training period, candidates are studying the systems of Soyuz manned spaceship in detail. Soyuz is a spacecraft of Russia, which carries

6. The total cost of Gaganyaan Programme is approximately 9023.00 crores.
7. The mission was formally announced by Prime Minister Narendra Modi during his Independence Day address on August 15, 2018.
8. The initial target was to launch the human spaceflight before the 75th Anniversary of India's Independence on August 15, 2022. However, it has been delayed due to the Covid-19 induced lockdown.
9. With this launch, India will possibly become the fourth nation in the world to launch a Human Spaceflight Mission.

sion after the USA, Russia and China. Denmark also has a manned space flight scheduled for 2022.

## Payloads under the Mission

Payload under the Gaganyaan mission consists of:

1. Crew module - A spacecraft to carry human beings.
2. Service module - It is powered by two liquid propellant engines and will be equipped with emergency mission abort and emergency escape.

## Objectives of Gaganyaan

- The main objective of the Gaganyaan mission is technology demonstration.
- The programme will source 60-70% components and value-added services from Indian industries.
- ISRO has already developed and demonstrated many critical technologies like crew module configuration, crew escape system, thermal protection, deceleration and flotation systems and re-entry capability.

## Likely Benefits of Gaganyaan

The Human spaceflight programme has both tangible and intangible benefits for the nation, which includes:

- a) Progress towards a sustained and affordable human and robotic programme to explore the solar system and beyond.
- b) Advanced technology capability for undertaking human space exploration, sample return missions and scientific exploration.
- c) Future capability to actively collaborate in global space station development & to carry out scientific experiments of interest to the nation.
- d) Create a broad frame work for wider Academia - Industry partnership in taking up development activities for national development.
- e) Ample scope for employment generation and human resource development in advanced science and R&D activities. According to the ISRO chief, the Gaganyaan mission would create 15,000 new employment opportunities, 13,000 of them in private industry and the space organisation would need an additional manpower of 900.
- f) Unique opportunity to inspire and excite Indian youth and steer many students toward careers in science and technology towards challenging jobs that encourage knowledge, innovation and creativity.
- g) The programme will strengthen international partnerships and global security through the sharing of challenging and peaceful goals. Having a vibrant human spaceflight programme can be leveraged as a potent foreign policy tool.

### Golden boy spears a silver

► "I will take it," said Neeraj Chopra, who felt "something" on his strapped thigh, on way to what he termed a challenging history-scripting silver at the World Championships javelin throw. The reigning Olympic champion admitted that his comeback from outside medal position midway into the final was "challenging". He was lying at fourth position after three rounds of throws, having opened with a foul before registering 82.39m and 86.37m in his next two attempts. He got his rhythm back with a big fourth round throw of 88.13m, his fourth career-best effort, to jump to second place, which he held on to till the end. "I am happy to have won a silver, the country's first medal in World Athletics Championships after 19 years. I will take it."

## **Summer Project:**

**Project title:** The secured two wheeler.

**Platform :** Microcontroller 8051,P-SPICE.

**Description:** To overcome theft of two wheeler which is increasing day by day.

**Working:** when a duplicate key is inserted in the ignition slot and tried to start the vehicle RFID reads the code since the code doesn't matches it cut power supply to the ignition coil and simultaneously alerts owner through continuous SMS through GSM. In case of accident, accident sensors monitor the situation and send SMS to the nearest helpline along with longitude and latitude of that location.

**Consumer section:** It is cost effective when produced in the mass, consumer can afford.

**Conclusion:** It is highly reliable security system, cost effective, better than beeping alarms and handle lock.

## **Curriculum Project:**

**Project title:** Universal multi monitoring and control system.

**Platform :** Microcontroller 8051,P-SPICE.

**Description :** Monitoring the security of the home, industries, banks and other similar organizations through GSM and other sensors .

**Working:** To control home appliances remotely using GSM, in case of emergency it reports owners through SMS, Fire sensors senses the fire caught in the kitchen, LPG sensors senses gas leakage , temperature sensors senses excess temperature and sends signal to the micro controller which in turn initiates GSM to send SMS to the owner .

**Consumer section:** It satisfies user need and requirements, provides security in case of theft or breaching the doors.

**Conclusion:** Provides higher end security, this security can be applicable for all kinds of areas.

### **Extra Curricular Activities:**

- ❖ Participated in Technical events and cultural events in college.
- ❖ Attended solo song competitions in schools and colleges.
- ❖ Serving disabled children by motivating them positively at Samartham trust for disabled Bangalore.
